

We are encouraging creative use of 3d design engineering technologies in surgery and prosthetics. The competition is open to participants across India.

Winners will be invited to take part in a hands on workshop. You'll get to learn about the latest 3d digital design technologies and work with like-minded innovators to develop your ideas.

CONSENT

Your entry will be held securely for purposes related to the Co-Meddi project only. Do you agree to take part in this challenge set by the principal investigators of the Co-Meddi project?

Do you consent to your personal details being held for the purposes of judging the challenge and for communicating updates?
